QUALIFICATION UNITS – P/N E50152-PRESSURE VESSEL ASSEMBLY

Supplier shall contact Northrop Grumman Innovation Systems prior to proof testing units per drawing note 10. NGIS may designate, via serial number, qualification unit(s) as needed that will be used for proof cycle testing as cited in drawing note 20. Any units designated for cycle testing shall only proceed through cycle testing and not be proof tested per note 10.
