All Radiographic and other nondestructive testing (NDT) processes as defined below and noted on Northrop Grumman drawings or in Northrop Grumman specifications referenced on Northrop Grumman drawings for this order shall be performed by sources that have been approved by Northrop Grumman which includes personnel qualification at a minimum Level 2 in accordance with the requirements of NAS410. A list of the current approved sources is available from Northrop Grumman's Quality Assurance Department via Northrop Grumman's Procurement Agent. This requirement applies to all levels of subtier suppliers down to the facility performing the process.

In addition to Radiographic processes, this requirement defines NDT processes as:
- Liquid Penetrant
- Magnetic Particle
- Ultrasonic
- Eddy Current

Radiographic and NDT processes other than those listed above are not subject to the requirements listed herein unless specifically directed per other contract requirements.

The supplier shall ensure that these requirements are flowed down through the supply chains that support the item(s) on this order.
