QUALITY PROVISIONS
STANDARD TEXT CODES

TITLE
CLOSE OUT PHOTOGRAPHS REQUIRED (DELIVERABLE)

NUMBER 0736.1
DATE: 09/10/2018

The supplier shall provide closeout photographs with each deliverable end item to document internal areas that cannot be inspected without disassembly. The supplier shall identify each photograph with the part number, serial number, and a date stamp of the item being photographed. The supplier shall ensure that the photographs are of sufficient quality and clarity to allow Northrop Grumman to verify the item's final assembly is consistent with design and manufacturing requirements.

The supplier’s responsible engineer or subject matter expert (SME) shall review the closeout photograph during build up inspection for compliance and take corrective action on issues discovered before initiating the next level of assembly or operation.

Closeout photographs of Commercial Off the Shelf (COTS) items within the assembly are not required.
