Northrop Grumman considers this item to be age sensitive and requires shelf life data to be submitted with the item. The supplier’s shipping documents shall state the data required to determine the length of shelf life and the date of expiration of the shelf life such as date of manufacture (DOM), date of shipment (DOS), date of expiration (DOE), and/or the actual period of shelf life from a stated date. If applicable, the documents shall also state any unique environmental storage conditions required and the exterior package shall be prominently marked indicating the type of unique storage required. The supplier shall assure that a minimum of 75% of the shelf life is remaining at time of shipment to Northrop Grumman, however, regardless of the amount of shelf life remaining the supplier shall not provide material that is older than 1 year from the date of manufacture.
